From the Editor

This issue of the MOUG Newsletter is one that I am certain you will find most useful. It contains an index to newsletters no. 1-40, arranged in two sections. The first section indexes information based on OCLC MARC tags from the scores and sound recordings formats. The second section is the traditional alphabetical listing. Every article in every issue has been indexed, and all author names and most speaker names have been indexed. The citations are given in the format "Newsletter number:page number"; for example, the article

"Authority Control in the Online Environment" 39:15-18

is found in MOUG Newsletter no. 39, pages 15-18. Inclusive paging has been used throughout.

I would like to thank the MOUG Executive Board (Don Hixon, Jennifer Bowen, Candy Feldt, Laura Snyder, and Jay Weitz) for their support and their helpful suggestions. Thanks are also due to the UCSD Library Catalog Department, particularly to Kristi Erie for her editorial assistance.
